

MDQ01

A spacious, easy-to-maneuver tool trolley is a good solution for storing components of various sizes.

- Four horizontal beams can be fitted with storage bins of suitable sizes and quantities, which can be repositioned or supplemented as needed.
- The metal structure is powder-coated to ensure a durable finish. The trolley legs can be replaced with swivel solid-rubber castors for smooth and easy movement.

The product is delivered unassembled as separate components. Assembly is available for an additional charge.

Dimension options (mm)

L: 1250
H: 1280; 1980
R: Depend on wheel model (100-200mm)
