

MDQ02

An easy-to-maneuver tool tower with solid-rubber castors is suitable for demanding environments where smooth mobility in confined spaces is essential.

- The sturdy tool tower is made of perforated sheet metal and has a load capacity of up to 150 kg when the load is evenly distributed.
- Hooks and other storage accessories can be added to the tower for storing tools. The metal structure is powder-coated to ensure a durable finish.

The product is delivered unassembled as separate components. Assembly is available for an additional charge.

Dimension options (mm)
