

# XTBL

**An innovative folding table with versatile applications, designed to provide maximum mobility for demanding work environments**

- The gas strut allows the table to be folded and transported with ease.
- The strength of the structure is ensured by high-quality steel and welded joints. The table has an optimal load capacity of 200 kg and, depending on the conditions of use, can support up to 400 kg.
- The chains allow the table to be adjusted to different working heights.

*The product is delivered unassembled as separate components. Assembly is available for an additional charge.*
